November 15, 2011

- ADC 226 established Authority Code edits to replace DODAAC edits from the ADC 110 Series.
 - ✓ Implemented in November 2009 at DLA Transaction Services.
- ADC 110 edits based on “Bill to” DODAAC were removed.
 - ✓ For example, edits for “FA” DODAAC’s, which are administrative DODAAC’s only, were removed and replaced by an edit for Authority Code “07” – Administrative Only.
 - ✓ Bills coming into DLA Transaction Services containing a DODAAC with Authority Code “07” would reject.

Current Authority Codes

- “00” – Requisition, Bill to, Ship to
- “01” – Ship to Only
- “02” – Bill to Only
- “03” – Do Not Ship to
- “04” – DRMS Only
- “05” – Non-Requisition
- “06” – Free Issue
- “07” – Administrative

Authority Codes - Issues & Proposed Action

- Non-Interfund DODAAC's with Authority Code "00" flow through DLA Transaction Services.
 - ✓ For example, "FT" and "FF" DODAAC's are assigned Authority Code "00", but are not allowed to go through Interfund.
- Recommend the establishment of a Non-Interfund Authority Code.
 - ✓ If the ADC 110 Series is discontinued, then a new edit will need to be established to ensure non-interfund 'bill to' DODAAC's reject at DLA Transaction Services.
- Possible Benefits:
 - ✓ Will help prevent Non-Interfund bills from coming through DLA Transaction Services.
 - ✓ Will help identify DODAAC's using the SF 1080 process that should be going through Interfund.
